

Dear President Boric,

We, the undersigned faculty and alumni of the University of Chicago, celebrate the new Constitution of Chile that would replace dictator Augusto Pinochet's previous Constitution and redress the shameful legacy of the "Chicago Boys" that participated in his military government.

We are inspired by the peaceful and democratic process that has generated the new Constitution of Chile and its vision of social, economic, and ecological justice that stands in contrast to the free market fundamentalism of the Chicago Boys.

We hope that the September plebiscite on the new Constitution marks a new era in the relationship between our academic community and the people of Chile based on collaboration, communication, and respect for the pillars of democracy constructed by the new Constitution.

Signed,
